ASSEMBLY JOINT RESOLUTION—Proposing to amend the Nevada Constitution to authorize the Legislature to reapportion the legislative districts when a certain percentage of the districts have experienced changes in population.

Legislative Counsel's Digest:

1 The Nevada Constitution requires the Legislature to determine the number of
2 Senators and Assemblymen and to apportion them among the several counties or
3 among legislative districts every 10 years based on the data from the decennial
4 census of the United States. (Nev. Const. Art. 4, § 5)

5 This bill proposes to amend the Nevada Constitution to authorize the
6 Legislature to conduct a reapportionment of legislative districts in between the
7 decennial censuses if the population in 15 percent of Assembly or Senate districts is
8 greater than or less than, by more than 10 percent, the average population of the
9 Assembly or Senate districts, respectively.

10 If this proposed resolution is passed by the 2009 Legislature, it must also be
11 passed by the next Legislature and approved and ratified by the people in an
12 election before the proposed amendment to the Nevada Constitution becomes
13 effective.
