EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets **[omitted material]** is material to be omitted.

AN ACT relating to county fire departments; requiring a board of county commissioners that creates a district for a fire department to adopt an ordinance requiring the imposition and collection of fees for the transportation of sick or injured persons by the department to a medical facility; **requiring such an ordinance in a county whose population is over 400,000 to limit the number of such transports by the department and to report to the Legislature the fees charged for and the number of such transports;** and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law requires the board of county commissioners, in a county where a district for
2 a fire department has been created and where the fire department transports sick or injured
3 persons to a medical facility, to adopt an ordinance that either: (1) requires the fire department
4 to impose and collect fees to defray the expenses of furnishing such transportation; or (2)
5 prohibits the imposition and collection of such fees. (NRS 244.2961) **Section 1** of this bill
6 repeals the option of adopting an ordinance prohibiting the imposition and collection of such
7 fees. **Section 1 also requires that, in a county whose population is 400,000 or more (currently Clark County), such an ordinance limit the number of transports the fire department may make each month to not more than 25 percent of the transports made each month by all public and private entities in the county.** **Section 2** of this bill, with
8 respect to a county that has already adopted an ordinance prohibiting the imposition and
9 collection of such fees, allows the county until January 1, 2010, to amend or repeal that
10 ordinance. **Section 3 of this bill requires the board of county commissioners of a county whose population is 400,000 or more to submit an annual report to the Legislature on the number of monthly transports made by the fire department, both in total and as a percentage of total transports by all public and private entities, and the fees charged for those transports.**
