AN ACT relating to bicycles; revising provisions governing the operation of bicycles; providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides that every person riding a bicycle upon a roadway is generally subject to the provisions of chapter 484 of NRS which apply to drivers of vehicles. (NRS 484.503) Existing law requires the driver of a vehicle to signal an intention to turn from a direct course continuously during not less than the last 100 feet traveled in a business or residential district and not less than the last 300 feet traveled in any other area. (NRS 484.343) **Section 2** of this bill exempts the operator of a bicycle from these requirements and instead requires the operator only to signal his intention to turn at least one time, unless the bicycle is in a designated turn lane or when safe operation of the bicycle requires the operator to keep both hands on the bicycle.

Existing law provides for the methods of giving signals by hand and arm. (NRS 484.347) **Section 3** of this bill authorizes an operator of a bicycle to signal for a right turn by extending his right hand and arm horizontally and to the right side of the bicycle.

Existing law prohibits the driving of a vehicle upon any sidewalk area. (NRS 484.451) **Section 4** of this bill provides that **[an operator of a bicycle may operate a bicycle upon any sidewalk area unless a local ordinance prohibits or restricts such operation. Section 4 also provides] a local authority may not enact any ordinance that requires the operation of bicycles upon sidewalks or side paths, and that any such ordinance enacted by a local authority [which requires the operation of bicycles only upon sidewalk areas] is void.**
