Legislative Counsel's Digest:

Chapter 308 of NRS provides for the creation of various types of special districts for various purposes. This bill authorizes the creation of special districts to manage money that is: (1) paid to the State by the Federal Government; and (2) designated for the territory covered by the district. To qualify, the number of county commissioners serving on the governing board of the special district cannot constitute a majority and the special district must be authorized to act independently of the county when managing the district. This bill also requires that, if a special district has been created, federal money be paid directly to the district and not to the county or counties within which the district lies.

Under the provisions of this bill, the governing body of any special district created pursuant thereto must, on or before January 1, 2011, submit a one-time report to the Director of the Legislative Counsel Bureau for transmittal to the 76th Session of the Nevada Legislature.

The provisions of this bill expire by limitation on June 30, 2013.
