AN ACT relating to recycling; providing for the placement of recycling containers on the premises of certain apartment complexes, condominiums and the Nevada System of Higher Education and its branches and facilities; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, the board of county commissioners in a county whose population is 100,000 or more (currently Clark and Washoe Counties) is required to make available for use in that county a program for separating recyclable material from other solid waste originating from certain residential premises and public buildings. Existing law authorizes certain other counties and municipalities to provide such a program. (NRS 444A.040) **Section 7** of this bill provides for the inclusion of provisions concerning the placement of recycling containers on the premises of apartment complexes and condominiums in the recycling programs of those counties and municipalities.

Existing law authorizes each board of county commissioners in this State to regulate all matters relating to the construction, maintenance and safety of buildings, structures and property within the county. (NRS 244.3675) Existing law confers similar authority upon the governing body of an incorporated city in this State. (NRS 268.413) **Section 11** of this bill prohibits a board of county commissioners of a county or a governing body of a city from approving, on or after October 1, 2009, any plan or revised plan for the construction or major renovation of an apartment complex or condominium unless the plan or revised plan includes provisions for the placement of recycling containers on the premises of the apartment complex or condominium.

Existing law requires the Board of Regents of the University of Nevada to prescribe procedures for the recycling of paper and paper products used by the Nevada System of Higher Education and requires the Board of Regents to pay any money received by the System for recycling those products to the State Treasurer for credit to the State General Fund. (NRS 396.437) **Section 14** of this bill requires the Board to prescribe procedures for the recycling of other waste materials, including, without limitation, the placement of recycling containers on the premises of the System or any of its branches or facilities where services for

the collection of solid waste are provided. **Section 14** also requires the money received by the System for recycling those materials to be accounted for separately and used to carry out the provisions of that section.
