**Legislative Counsel's Digest:**

The Nevada Clean Indoor Air Act, which is currently codified as NRS 202.2483, was proposed by an initiative petition and approved by the voters at the 2006 General Election and therefore is not subject to legislative amendment or repeal until after December 8, 2009. The Act: (1) generally prohibits the smoking of tobacco in certain locations, such as within indoor places of employment, within school buildings and on school property; (2) provides that local authorities may adopt and enforce local tobacco control measures that meet or exceed the minimum applicable standards set forth in the Act; and (3) authorizes state and local health authorities and local law enforcement to enforce the provisions of the Act and issue citations for violations of the Act.

This bill revises the provisions of the Act by: (1) authorizing the smoking of tobacco in certain ~~public smoking areas of an indoor place of employment, under certain circumstances, and in certain~~ convention facilities during certain meetings and trade shows; (2) establishing an “adult stand-alone bar, tavern or saloon” as a new type of establishment in which smoking is allowed; (3) eliminating the provision that authorizes local authorities to adopt and enforce local tobacco control measures that meet or exceed the minimum applicable standards set forth in the Act; ~~and~~ (4) requiring the State Board of Health to adopt regulations relating to the enforcement of the Act; and (5) providing that the State Health Officer or his designee may enforce the provisions of the Act and issue citations for violations of the Act, ~~but~~ and the State Health Officer is required to designate local health authorities ~~and local law enforcement officers may not do so,~~ to enforce the provisions of the Act in certain areas of this State under certain circumstances.
