AN ACT relating to labor; making various changes relating to the establishment of the prevailing rates of wages in each county; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law requires the Labor Commissioner to establish the prevailing rate of wages
2 for public works performed in each county. In determining the prevailing rate of wages for a
3 county for a particular year, the Labor Commissioner is required to survey contractors who
4 have performed work in the county during the preceding year. (NRS 338.030) **Section 1** of
5 this bill: (1) clarifies that the survey encompasses private and public nonresidential
6 construction work; (2) specifies the classes of workmen for which the Labor Commissioner is
7 required to survey; (3) if the prevailing rate of wages for a craft or type of work is a wage that
8 has been collectively bargained, requires the Labor Commissioner to recognize the rate for the
9 classes and subclasses of workmen and certain premium pay established in the collective
10 bargaining agreement and adjust to the rate of wages in the agreement that are in effect on the
11 effective date of the determination; and (4) clarifies the circumstances in which the Labor
12 Commissioner is required to hold a hearing in a locality concerning an objection to or
13 information received on a rate of prevailing wage that has been determined. These
14 requirements apply initially to the process of determining and issuing the prevailing rate of
15 wages that will become effective on October 1, 2010.

16 Under existing law, agencies of the Executive Branch of the State Government, unless
17 specifically exempted, are required to comply with the Nevada Administrative Procedure Act
18 when adopting administrative regulations or adjudicating contested cases. (NRS 233B.039)
19 **Section 2** of this bill exempts the Labor Commissioner from compliance with the Act only in
20 the process of determining and issuing the prevailing rate of wages in each county.
