THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 386 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this act.

Sec. 2. *The Legislature declares that:*

1. Children are particularly vulnerable to and may be severely affected by exposure to chemicals, hazardous wastes and other environmental hazards that may be used for cleaning and maintenance in the public schools; and

2. It is the intent of the Legislature to reduce the possible exposure of pupils and school personnel to potentially hazardous chemicals and substances which are used in the cleaning and maintenance of the public schools in this State.

Sec. 3. 1. *The Department of Education shall, in consultation with each school district, the State Department of Conservation and Natural Resources, the Department of Health and Human Services and other interested parties, including, without limitation, representatives of the cleaning and maintenance product industry, nongovernmental agencies and organizations, and parents and legal guardians of pupils enrolled in the school district, adopt regulations setting forth the standards for environmentally sensitive cleaning and maintenance products for use in the cleaning of all floor surfaces in the public schools.*

2. The Department shall provide a sample list of approved environmentally sensitive cleaning and maintenance products for use in the cleaning of all floor surfaces to each school district based upon the standards prescribed pursuant to subsection 1.

3. The Department shall, at least every 2 years, review and may amend the sample list developed pursuant to subsection 2 as necessary.

4. Except as otherwise provided in subsections 6 and 7, each school district shall ensure that the public schools within the school district use only environmentally sensitive cleaning and maintenance products in the cleaning of all floor surfaces in the public schools within the school district in accordance with the regulations adopted pursuant to subsection 1.

1 5. The board of trustees of a school district may consult with
2 persons who are knowledgeable and have experience in
3 environmentally sensitive cleaning and maintenance products to
4 determine if the board of trustees should:

5 (a) Submit a written request to the Department pursuant to
6 subsection 6 or 7.

7 (b) Use any other environmentally sensitive cleaning and
8 maintenance products in the public schools within the school
9 district pursuant to subsection 9.

10 6. If the board of trustees of a school district determines that
11 the costs associated with the purchase or use of environmentally
12 sensitive cleaning and maintenance products for use in the
13 cleaning of floor surfaces are unreasonable and would place an
14 undue burden on the efficient operation of the school district or a
15 particular school within the school district, the board of trustees
16 may submit a written request to the Department for a waiver from
17 purchasing and using environmentally sensitive cleaning and
18 maintenance products for use in the cleaning of floor surfaces for
19 the school district as a whole or for a particular school or schools
20 within the school district.

21 7. If the board of trustees of a school district determines that
22 an environmentally sensitive cleaning and maintenance product
23 for use in the cleaning of floor surfaces which is not included in
24 the sample list developed pursuant to subsection 2 is more
25 economically feasible or is a more effective environmentally
26 sensitive cleaning and maintenance product, the board of trustees
27 may submit a written request to the Department for a waiver to
28 purchase and use such an environmentally sensitive cleaning and
29 maintenance product that complies with the standards prescribed
30 pursuant to subsection 1.

31 8. If a waiver is granted by the Department pursuant to
32 subsection 6 or 7, the waiver is effective for 1 year after the date of
33 its approval and a renewal may be requested on an annual basis in
34 the manner set forth in subsection 6 or 7, as applicable.

35 9. In addition to the environmentally sensitive cleaning and
36 maintenance products for use in the cleaning of floor surfaces in
37 the public schools within the school district required pursuant to
38 subsection 1, the board of trustees of a school district may use
39 environmentally sensitive cleaning products for use in the
40 cleaning of any other surfaces.

41 10. The regulations adopted by the Department must not
42 prohibit the use of any disinfectant, sanitizer, antimicrobial
43 product or other cleaning product when necessary to protect the
44 health and welfare of the pupils enrolled in a school within the
45 school district and the educational personnel of the school district.
