

Senate Bill No. 340—Committee on Health and Education

CHAPTER.....

AN ACT relating to public health; revising provisions governing the allocation by the Department of Health and Human Services of certain money from the Fund for a Healthy Nevada; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law establishes the Fund for a Healthy Nevada in the State Treasury, into which the State Treasurer is required to deposit: (1) fifty percent of all money received by the State pursuant to any settlement entered into by the State and a manufacturer of tobacco products; and (2) fifty percent of all money recovered by the State from a judgment in a civil action against a manufacturer of tobacco products. (NRS 439.620) Existing law requires the Department of Health and Human Services to allocate, by contract or grant, for expenditure not more than 15 percent of available revenues from the Fund for a Healthy Nevada for programs that prevent, reduce or treat the use of tobacco and the consequences of the use of tobacco. (NRS 439.630) This bill requires that the money be allocated for programs that are consistent with the guidelines of the Centers for Disease Control and Prevention of the United States Department of Health and Human Services relating to evidence-based best practices to prevent, reduce or treat the use of tobacco and the consequences of the use of tobacco. This bill further requires that the money be allocated: (1) to the district board of health in each county whose population is 100,000 or more (currently Clark and Washoe Counties) for expenditure for such programs in the respective county; (2) for such programs in counties whose population is less than 100,000 (all counties other than Clark and Washoe Counties); and (3) for evaluations, statewide tobacco cessation programs and other statewide services deemed necessary by the Health Division of the Department of Health and Human Services and district boards of health. This bill also removes the requirement that the Department or the Grants Management Advisory Committee conduct public hearings regarding existing or proposed programs that reduce or prevent the use of tobacco.
