

ASSEMBLY BILL NO. 102—ASSEMBLYWOMAN CARLTON

PREFILED JANUARY 27, 2011

Referred to Committee on Commerce and Labor

SUMMARY—Revises provisions governing the requirements for licensure as a professional engineer or professional land surveyor. (BDR 54-767)

FISCAL NOTE: Effect on Local Government: No.
Effect on the State: No.

~

EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets [~~omitted material~~] is material to be omitted.

AN ACT relating to professional licenses; revising the requirements for licensure as a professional engineer or professional land surveyor for certain applicants; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Before July 1, 2010, state law authorized a person to obtain a license from the
2 State Board of Professional Engineers and Land Surveyors to practice as a
3 professional engineer or professional land surveyor in this State if the person
4 passed the requisite examination for licensure and: (1) met certain educational
5 requirements by obtaining a 4-year degree; or (2) had a record of 10 or more years
6 of active experience in his or her respective field of work. In 1999, the Legislature
7 enacted legislation that, effective July 1, 2010, deleted the provisions which
8 allowed an applicant for licensure to obtain a license in professional engineering or
9 professional land surveying based on 10 or more years of active work experience in
10 addition to passing the requisite examination. (Sections 5 and 7 of chapter 478,
11 Statutes of Nevada 1999, pp. 2435, 2437) In 2005, the Legislature enacted
12 legislation authorizing certain applicants for a professional engineering license to
13 sit for the principles and practices portion of the examination for licensure after
14 obtaining 6 years of active experience in engineering work. Such applicants were
15 eligible for licensure if they obtained an additional 4 years of active work
16 experience in engineering before July 1, 2010, in addition to meeting all other
17 requirements for licensure. (Sections 3 and 4 of chapter 75, Statutes of Nevada
18 2005, pp. 206, 208) After the enactment of the legislation in 2005, and until July 1,
19 2010, applicants for licensure as a professional land surveyor were still required to
20 obtain 10 years of active work experience before they were eligible to sit for the
21 principles and practices portion of their respective examination.

22 **Section 2** of this bill authorizes certain applicants for licensure as a
23 professional engineer who received approval from the Board before July 1, 2010, to
24 sit for the principles and practices portion of the professional engineering

25 examination for licensure to obtain a license from the Board if the applicants,
26 before August 1, 2014, pass the requisite examination for licensure. Applicants for
27 licensure as a professional engineer must also complete their respective work
28 experience requirement by obtaining a record of 10 or more years of active work
29 experience in engineering before August 1, 2014. **Section 3** of this bill authorizes
30 the Board to waive educational requirements for certain applicants for licensure as
31 a professional land surveyor who, before July 1, 2010, met all the requirements for
32 licensure other than passing the examination on the principles and practices of land
33 surveying and who pass the examination before August 1, 2014.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 **Section 1.** Chapter 625 of NRS is hereby amended by adding
2 thereto the provisions set forth as sections 2 and 3 of this act.

3 **Sec. 2.** *The Board may waive any requirement for education
4 that is required for licensure as a professional engineer pursuant
5 to subsection 3 of NRS 625.183 and may issue a license to practice
6 professional engineering to a person who:*

7 *1. Before July 1, 2010, received approval from the Board to
8 take the examination on the principles and practices of
9 engineering pursuant to paragraph (b) of subsection 1 of NRS
10 625.193; and*

11 *2. Before August 1, 2014:*

12 *(a) Passes the examination for licensure pursuant to NRS
13 625.193; and*

14 *(b) Has a record of 10 years or more of active experience in
15 engineering which is satisfactory to the Board and which indicates
16 the person is competent to be placed in responsible charge of
17 engineering work.*

18 **Sec. 3.** *The Board may waive any requirement for education
19 that is required for licensure as a professional land surveyor
20 pursuant to subsection 3 of NRS 625.270 and may issue a license
21 to practice professional land surveying to a person who:*

22 *1. Before July 1, 2010, satisfactorily met the requirements for
23 licensure as a professional land surveyor other than passing the
24 examination on the principles and practices of land surveying
25 pursuant to paragraph (b) of subsection 1 of NRS 625.280; and*

26 *2. Before August 1, 2014, passes the examination for
27 licensure pursuant to NRS 625.280.*

28 **Sec. 4.** NRS 625.183 is hereby amended to read as follows:

29 625.183 1. A person who:

30 (a) Is 21 years of age or older; and

31 (b) Is a citizen of the United States or is lawfully entitled to
32 remain and work in the United States,

* A B 1 0 2 *

1 → may apply to the Board, in accordance with the provisions of this
2 chapter and any regulations adopted by the Board, for licensure as a
3 professional engineer.

- 4 2. An applicant for licensure as a professional engineer must:
5 (a) Be of good character and reputation; and
6 (b) Pass the examination on the:
7 (1) Fundamentals of engineering or receive a waiver of that
8 requirement; and
9 (2) Principles and practices of engineering,

10 → pursuant to NRS 625.193.

11 3. **[An]** *Except as otherwise provided in section 2 of this act,*
12 **an** applicant for licensure as a professional engineer is not qualified
13 for licensure unless the applicant is a graduate of an engineering
14 curriculum of 4 years or more that is approved by the Board and has
15 a record of 4 years or more of active experience in engineering
16 which is satisfactory to the Board and which indicates that the
17 applicant is competent to be placed in responsible charge of
18 engineering work. An applicant who is eligible to take the
19 examination on the principles and practices of engineering pursuant
20 to subsection 2 of NRS 625.193 may take the examination on the
21 principles and practices of engineering before the applicant meets
22 the active experience requirements for licensure set forth in this
23 subsection.

24 4. To determine whether an applicant for licensure as a
25 professional engineer has an adequate record of active experience
26 pursuant to subsection 3:

27 (a) Graduation from a college or university in a discipline of
28 engineering with a master's or doctoral degree is equivalent to 2
29 years of active experience, except that, in the aggregate, not more
30 than 2 years of active experience may be satisfied by graduation
31 from a college or university with such degrees, regardless of the
32 number of degrees earned.

33 (b) Two of the 4 years of active experience must have been
34 completed by working under the direct supervision of a professional
35 engineer who is licensed in the discipline in which the applicant is
36 applying for licensure, unless that requirement is waived by the
37 Board.

38 (c) The execution, as a contractor, of work designed by a
39 professional engineer, or the supervision of the construction of that
40 work as a foreman or superintendent, is not equivalent to active
41 experience in engineering.

42 5. A person who is not working in the field of engineering
43 when applying for licensure is eligible for licensure as a
44 professional engineer if the person complies with the requirements
45 for licensure prescribed in this chapter.

* A B 1 0 2 *

1 **Sec. 5.** NRS 625.270 is hereby amended to read as follows:

2 625.270 1. A person who:

3 (a) Is 21 years of age or older; and

4 (b) Is a citizen of the United States or is lawfully entitled to
5 remain and work in the United States,
6 → may apply to the Board, in accordance with the provisions of this
7 chapter and any regulations adopted by the Board, for licensure as a
8 professional land surveyor.

9 2. An applicant for licensure as a professional land surveyor
10 must:

11 (a) Be of good character and reputation; and

12 (b) Pass the examination on the:

13 (1) Fundamentals of land surveying or receive a waiver of
14 that requirement; and

15 (2) Principles and practices of land surveying,

16 → pursuant to NRS 625.280.

17 3. **[An]** *Except as otherwise provided in section 3 of this act,*
18 ***an*** applicant for licensure as a professional land surveyor may not
19 take the examination on the principles and practices of land
20 surveying, unless the applicant is a graduate of a land-surveying
21 curriculum of 4 years or more that is approved by the Board and has
22 a record of 4 years or more of active experience in land surveying
23 that is satisfactory to the Board and indicates that the applicant is
24 competent to be placed in responsible charge of land-surveying
25 work.

26 4. To determine whether an applicant for licensure as a
27 professional land surveyor has an adequate record of active
28 experience pursuant to subsection 3:

29 (a) Two of the 4 years of active experience must have been
30 completed by working under the direct supervision of a professional
31 land surveyor, unless that requirement is waived by the Board.

32 (b) The execution, as a contractor, of work designed by a
33 professional land surveyor, or the supervision of the construction of
34 that work as a foreman or superintendent, is not equivalent to active
35 experience in land surveying.

36 5. A person who is not working in the field of land surveying
37 when applying for licensure is eligible for licensure as a
38 professional land surveyor if the person complies with the
39 requirements for licensure prescribed in this chapter.

40 **Sec. 6.** This act becomes effective on July 1, 2011.
