EXPLANATION – Matter in **bolded italics** is new; matter between brackets **[omitted material]** is material to be omitted.

AN ACT relating to water; revising the amount of the fee for issuing and recording a permit to change the point of diversion or place of use only of an existing water right for irrigational purposes; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law sets forth a schedule of fees that the State Engineer is required to
2 collect for providing various services relating to the appropriation of water for
3 beneficial uses in Nevada. In 2009, a fee of \$200 for issuing and recording a permit
4 to change the point of diversion or place of use only of an existing water right for
5 irrigational purposes was eliminated and the following fee became applicable to
6 such a permit: (1) a fee of \$250 for issuing and recording a permit to change an
7 existing water right for any purpose other than for watering livestock or wildlife
8 purposes or for certain uses concerning the generation of hydroelectric power; and
9 (2) an additional fee of \$3 for each acre-foot of water or fraction thereof approved
10 in the permit by the State Engineer. (Chapter 250, Statutes of Nevada 2009,
11 p. 1014; NRS 533.435) This bill reinstates and increases to \$500 the flat fee that
12 had been eliminated in 2009 for issuing and recording a permit to change the point
13 of diversion or place of use only of an existing water right for irrigational purposes.
14 Thus, under this bill, a person who is issued such a permit is required to pay a flat
15 fee of \$500 rather than a fee of \$250 plus an additional fee of \$3 for each acre-foot
16 of water or fraction thereof approved in the permit by the State Engineer.
