AN ACT relating to controlled substances; authorizing the Director of the Department of Health and Human Services to order the State Board of Pharmacy to adopt an extraordinary regulation to temporarily include a substance on the list of schedule I controlled substances under certain circumstances; requiring the Board to adopt an extraordinary regulation to temporarily include certain substances known as fake cocaine on the list of schedule I controlled substances; providing civil and criminal penalties; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law authorizes the State Board of Pharmacy to adopt regulations to add substances to the schedules of controlled substances if the Board makes certain findings regarding the substances. (NRS 453.146, 453.166-453.206) If the Board finds that scheduling of a substance is necessary to avoid an imminent hazard to the public safety and that the substance is not in any other schedule or exempt or approved under certain federal law, the Board may adopt an extraordinary regulation including the substance in schedule I for a period of 1 year without making the findings otherwise required to include the substance in schedule I. Before the adoption of the extraordinary regulation, the Board must initiate a proceeding to determine whether the substance satisfies the criteria to be included in schedule I. (NRS 453.2184) Under existing law, the procedures for adopting regulations under the Nevada Administrative Procedure Act do not apply to the Board if it is adopting an extraordinary regulation to temporarily include a substance in schedule I. (NRS 233B.039)

20 regulation to include certain substances known as fake cocaine on the list of
21 schedule I controlled substances for a period of 1 year and initiate a proceeding to
22 determine whether to adopt a permanent regulation to include these substances in
