AN ACT relating to land use planning; extending the period within which certain parcel maps must be recorded in certain counties; removing the prospective expiration of certain provisions concerning tentative maps and final maps of certain subdivisions of land; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law prescribes certain requirements for the proposed dividing of land into five or more units for the purpose of transfer or development, unless otherwise exempted. (NRS 278.320-278.460) The initial action in the process of dividing such land is the submission of a tentative map of the proposed subdivision, and the concluding action is the recordation of an approved final map. (NRS 278.330, 278.460) A subdivider whose tentative map of a proposed subdivision has been approved by the appropriate planning authority must present a final map covering the entire subdivision, or the first of a series of successive final maps covering portions of the subdivision, within 4 years after the approval of the tentative map, with certain exceptions, or proceedings concerning the subdivision are terminated. (NRS 278.360) Additionally, if a subdivider is presenting a series of final maps, each successive map must be presented within 2 years after the previous final map in the series was recorded, unless the planning authority grants an extension of not more than 2 additional years. (NRS 278.360)

These deadlines of 4 years and 2 years were extended from 2 years and 1 year, respectively, during the 2009 Legislative Session, and those changes are scheduled to expire on June 30, 2013, after which the deadlines will revert to 2 years and 1 year, respectively. (Section 3, chapter 59, Statutes of Nevada 2009, p. 165) **Section 2** of this bill removes that prospective expiration so that: (1) the deadline for presenting a final map or the first in a series of successive maps will remain at 4 years after the approval of the tentative map; (2) the deadline for presenting one of a series of successive final maps will remain at 2 years after the presentation of the

23 previous map; and (3) the possible duration of an extension to the deadlines for  
24 presenting one of a series of successive maps will remain at 2 years.

25 Existing law requires a person who proposes to divide any land for transfer or  
26 development into four lots or less to submit a parcel map showing the proposed  
27 division to the appropriate planning commission or local governing body for  
28 approval. (NRS 278.461, 278.464) If the parcel map is approved, the person must  
29 cause the map to be recorded in the office of the county recorder within 1 year after  
30 the approval, unless the governing body establishes by ordinance a longer period,  
31 which may not exceed 2 years. (NRS 278.468) **Section 1** of this bill extends that  
32 period to 3 years, and authorizes the governing body to grant a 1-year extension, for  
33 a parcel map prepared in a county whose population is less than 100,000 (currently  
34 counties other than Clark and Washoe Counties) if the parcel map shows land  
35 totaling 50 acres or more that is subject to a conservation easement preserving or  
36 protecting open space, a floodplain or agricultural lands.
