AN ACT relating to health care practitioners; prohibiting certain health care practitioners from participating in the procurement, purchase or consumption of certain drugs that are not labeled in accordance with federal regulations; providing that such participation is grounds for disciplinary action or denial of licensure; providing a penalty; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

1 The United States Food and Drug Administration requires that certain  
2 prescription drugs include a label which meets federal regulations for such labels.  
3 (21 C.F.R. Part 201) Existing law in this State authorizes certain health care  
4 practitioners, including physicians, physician assistants, dentists, advanced  
5 practitioners of nursing, osteopathic physicians, osteopathic physician assistants,  
6 podiatric physicians, optometrists and veterinarians, to prescribe and administer  
7 controlled substances and dangerous drugs under certain circumstances. (NRS  
8 639.0125, 639.235) This bill prohibits those health care practitioners and  
9 pharmacists from aiding, assisting, employing or advising, directly or indirectly,  
10 any person in the procurement, purchase or consumption of controlled substances  
11 and dangerous drugs that do not include a label as required under federal law. This  
12 bill further authorizes disciplinary action to be taken against health care  
13 practitioners for violations of the prohibition.
