Legislative Counsel’s Digest:

The Federal Food, Drug and Cosmetic Act requires the United States Food and Drug Administration to approve certain prescription drugs. (21 U.S.C. §§ 301 et seq.) Existing law in this State authorizes certain health care practitioners, including physicians, physician assistants, dentists, advanced practitioners of nursing, osteopathic physicians, osteopathic physician assistants, podiatric physicians and optometrists, to prescribe and administer controlled substances and dangerous drugs under certain circumstances. (NRS 639.0125, 639.235) This bill prohibits those health care practitioners from knowingly procuring and administering controlled substances and dangerous drugs that are not approved under federal law, unless the unapproved controlled substances and dangerous drugs were procured through a retail pharmacy, were procured through certain Canadian pharmacies or are considered marijuana used for medical purposes. This bill further authorizes disciplinary action to be taken against health care practitioners for violations of the prohibition.
