AN ACT relating to breaches of contracts for public works; revising the provisions of Assembly Bill No. 144 of this session relating to a material breach of certain contracts; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

1 Existing law requires that, for a contractor, applicant or design-build team to  
2 receive a preference in bidding for a contract for a public work, the contract must  
3 include a provision which requires the contractor, applicant or design-build team to  
4 comply with five specified conditions and provides that failure to comply with any  
5 of those five conditions is a material breach of the contract that entitles the public  
6 body to damages in the amount of 10 percent of the cost of the contract. (Section 2  
7 of Assembly Bill No. 144 of the 2011 Legislative Session) This bill provides that  
8 the public body is entitled to liquidated damages in the amount of 1 percent of the  
9 contract or subcontract for the public work entered into by the party that caused a  
10 failure to comply with any of the five specified conditions. This bill also allows the  
11 public body to recover the damages directly from the party that caused a failure to  
12 comply with any of the five specified conditions. Finally, this bill provides that the  
13 condition which requires that at least 25 percent of the suppliers of materials for the  
14 public work be located in this State does not apply when the public body requires  
15 the acquisition of materials or equipment that cannot be obtained from a supplier  
16 located in this State.
