EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to emergencies; enacting the Uniform Emergency Volunteer Health Practitioners Act, which allows a participating state to establish a system whereby medical and veterinary service providers from other states may register to provide volunteer medical and veterinary services in that state in the event of an emergency; allowing a participating state to determine how various licensing, liability and certain other state laws will apply to registered medical and veterinary service providers who provide such volunteer services in a state in which they are not licensed to practice; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Under existing law, the Division of Emergency Management of the Department
2 of Public Safety is required to implement a program for emergency management in
3 this State to be used during an emergency. (NRS 414.040) This bill enacts the
4 Uniform Emergency Volunteer Health Practitioners Act, and **section 22** of this bill
5 authorizes the Division to designate a registration system whereby health care
6 practitioners from other states may register to provide volunteer health care and
7 veterinary services in this State in certain emergency situations. **Section 21** of this
8 bill authorizes the Division to limit, restrict and regulate the activities of such
9 registered volunteers during such an emergency. **Section 23** of this bill provides
10 that such registered volunteers may only provide volunteer health care or veterinary
11 services if they are licensed and in good standing in their home state. **Section 25** of
12 this bill limits the practice in this State by such a registered volunteer to only those
13 services within the volunteer's scope of practice, unless specifically authorized to
14 practice outside that scope by the Division. **Section 25** also authorizes licensing
15 boards or other disciplinary authorities in this State to impose administrative
16 sanctions upon such registered volunteers for certain conduct, to report such

sanctions to the state in which the volunteer is licensed and to impose administrative sanctions upon a health practitioner licensed in this State for certain conduct in another state if the practitioner was volunteering in that state under this Uniform Act. **Section 27** of this bill authorizes the Division to adopt regulations to carry out this Uniform Act.

Existing law sets forth that health care providers licensed in this State who render emergency care or assistance in certain emergencies are not liable for civil damages for any act or omission unless that act or omission rises to the level of gross negligence. (NRS 41.504, 41.505) Under existing law, certain volunteers who work with a state or local public organization are considered, for the purposes of eligibility for benefits under industrial insurance, to be employees of that organization at a wage of \$100 per month. (NRS 616A.130) **Section 28** of this bill limits the liability of registered volunteer health practitioners volunteering in this State to only those acts or omissions in the provision of health care or veterinary services that rise to the level of gross negligence. **Section 29** of this bill makes such registered volunteers eligible, in certain circumstances, for the same industrial insurance benefits as other volunteers in this State, and for the same occupational disease benefits as employees of this State.

Confirmation is limited to obtaining identities of the practitioners from the system and determining whether the system indicates that the practitioners are licensed and in good standing.

3. Upon the request of a person or entity in this State authorized to do so pursuant to subsection 2, or a similarly authorized person or entity in another state, a registration system located in this State must notify the person or entity of the identities of volunteer health practitioners and whether the practitioners are licensed and in good standing.

4. A host entity is not required to use the services of a volunteer health practitioner even if the practitioner is registered with a registration system which indicates that the practitioner is licensed and in good standing.

Sec. 23. 1. Notwithstanding any other provision of law, while an emergency declaration is in effect, a volunteer health practitioner who is registered with a registration system that complies with section 22 of this act and who is licensed and in good standing in the state upon which the practitioner's registration is based may practice in this State to the extent authorized by sections 2 to 30, inclusive, of this act, as though the practitioner were licensed in this State.

2. A volunteer health practitioner qualified under subsection 1 is not entitled to the protections of sections 2 to 30, inclusive, of this act if the practitioner is licensed in more than one state and any license of the practitioner is suspended, revoked or subject to an agency order limiting or restricting practice privileges, or has been voluntarily terminated under threat of sanction.

Sec. 24. 1. Sections 2 to 30, inclusive, of this act do not affect credentialing or privileging standards of a health facility and do not preclude a health facility from waiving or modifying those standards while an emergency declaration is in effect.

2. As used in this section:

(a) "Credentialing" means obtaining, verifying and assessing the qualifications of a health practitioner to provide treatment, care or services in or for a health facility.

(b) "Privileging" means the authorizing by an appropriate authority, such as a governing body, of a health practitioner to provide specific treatment, care or services at a health facility subject to limits based on factors that include, without limitation, the practitioner's license, education, training, experience, competence, health status and specialized skill.

Sec. 25. 1. Subject to subsections 2 and 3, a volunteer health practitioner shall adhere to the scope of practice for a similarly licensed practitioner established by the licensing provisions, practice acts or other laws of this State.

2. Except as otherwise provided in subsection 3, sections 2 to 30, inclusive, of this act do not authorize a volunteer health practitioner to provide services that are outside the practitioner's scope of practice, even if a similarly licensed practitioner in this State would be allowed to provide the services.

3. The Division may modify or restrict the health or veterinary services that volunteer health practitioners may provide pursuant to sections 2 to 30, inclusive, of this act. An order under this subsection may take effect immediately, without prior notice or comment, and is not a regulation for the purposes of chapter 233B of NRS.

4. A host entity may restrict the health or veterinary services that a volunteer health practitioner is allowed to provide pursuant to sections 2 to 30, inclusive, of this act.

5. A volunteer health practitioner does not engage in unauthorized practice unless the practitioner has reason to know of any limitation, modification or restriction under this section or that a similarly licensed practitioner in this State would not be allowed to provide the services. A volunteer health practitioner has reason to know of a limitation, modification or restriction or that a similarly licensed practitioner in this State would not be allowed to provide a service if:

(a) The practitioner actually knows that the limitation, modification or restriction exists or that a similarly licensed practitioner in this State would not be allowed to provide the service; or

(b) From all the facts and circumstances known to the practitioner at the relevant time, a reasonable person would conclude that the limitation, modification or restriction exists or that a similarly licensed practitioner in this State would not be allowed to provide the service.

6. In addition to the authority granted by the laws of this State other than sections 2 to 30, inclusive, of this act to regulate the conduct of health practitioners, a licensing board or other disciplinary authority in this State:

1 (a) May impose administrative sanctions upon a health
2 practitioner licensed in this State for conduct outside of this State
3 in response to an out-of-state emergency;

4 (b) May impose administrative sanctions upon a practitioner
5 not licensed in this State for conduct in this State in response to an
6 in-state emergency; and

7 (c) Shall report any administrative sanctions imposed upon a
8 practitioner licensed in another state to the appropriate licensing
9 board or other disciplinary authority in any other state in which
10 the practitioner is known to be licensed.

11 7. In determining whether to impose administrative sanctions
12 pursuant to subsection 6, a licensing board or other disciplinary
13 authority shall consider the circumstances in which the conduct
14 took place, including, without limitation, any exigent
15 circumstances and the practitioner's scope of practice, education,
16 training, experience and specialized skill.

17 **Sec. 26.** 1. Sections 2 to 30, inclusive, of this act do not
18 limit any rights, privileges or immunities provided to volunteer
19 health practitioners by laws other than sections 2 to 30, inclusive,
20 of this act. Except as otherwise provided in subsection 2, sections 2
21 to 30, inclusive, of this act do not affect requirements for the use
22 of health practitioners pursuant to the Emergency Management
23 Assistance Compact.

24 2. The Division, pursuant to the Emergency Management
25 Assistance Compact, may incorporate into the emergency
26 personnel of this State volunteer health practitioners who are not
27 officers or employees of this State, a political subdivision of this
28 State or a municipality or other local government within this State.

29 **Sec. 27.** The Division may adopt regulations to carry out
30 sections 2 to 30, inclusive, of this act. In doing so, the Division
31 shall consult with the Governor and consider any pertinent rules
32 or regulations promulgated by similarly empowered agencies in
33 other states to promote uniformity in the application of sections 2
34 to 30, inclusive, of this act and make the emergency response
35 systems in the various states reasonably compatible.

36 **Sec. 28.** 1. Subject to subsection 3, a volunteer health
37 practitioner who provides health or veterinary services pursuant to
38 sections 2 to 30, inclusive, of this act is not liable for damages for
39 an act or omission of the practitioner in providing those services.

40 2. No person is vicariously liable for damages for an act or
41 omission of a volunteer health practitioner if the practitioner is
42 not liable for the damages under subsection 1.

43 3. This section does not limit the liability of a volunteer
44 health practitioner for:
