AN ACT relating to medical facilities; revising provisions governing billing and related practices of certain larger hospitals; revising requirements relating to notices of billing practices which must be provided to patients of certain hospitals; providing administrative penalties; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires major hospitals with 200 or more beds to reduce by at least 30 percent the total billed charges for hospital services provided to inpatients who: (1) do not have insurance; (2) are not eligible for a government program which provides medical assistance; and (3) make arrangements to pay the hospital bill. (NRS 439B.260) **Section 2** of this bill specifies that the reduction in total billed charges applies only to inpatients who do not have health insurance and specifically excludes policies of insurance such as casualty and property insurance for purposes of determining whether an inpatient has insurance. Existing law requires major hospitals to give patients, upon discharge, notice of the provisions concerning the reduction of billed charges. (NRS 449.730) **Section 2** additionally requires major hospitals to include such a notice on or with the first statement of the hospital bill provided to each patient. Existing law prescribes civil and administrative penalties which are applicable to a violation of the provisions of **section 2**. (NRS 439B.500)

Section 3 of this bill prohibits a hospital from collecting any amount owed to the hospital for hospital care from the proceeds or potential proceeds of a civil action or from an insurer other than a health insurer if the patient was covered by health insurance if and the hospital has a contractual agreement with the insurer of the patient.
