AN ACT relating to public roads; providing that ~~acceptance by the Department of Transportation of a filing by a board of county highway commissioners of a~~ map that includes a county road located on a certain right-of-way constitutes ~~validation~~ **the establishment of the existence and location** of ~~the~~ a right-of-way ~~by the State of Nevada~~ that is open for public use; **providing that acceptance by the Department of Transportation of that map constitutes acknowledgment by the Department of the establishment of the existence and location of a right-of-way that is open for public use;** authorizing the board of county highway commissioners in certain counties to locate and determine the width of certain rights-of-way and to open those rights-of-way for public use; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Currently in Nevada, many roads are popularly referred to as "R.S. 2477 roads." R.S. 2477 roads are roads that exist on public rights-of-way granted pursuant to 43 U.S.C. § 932, a federal law passed in 1866 and stating, "[t]he right of way for the construction of highways over public lands, not reserved for public uses, is hereby granted." In 1976, the United States Congress repealed the provisions of 43 U.S.C. § 932 by enacting the Federal Land Policy and Management Act of 1976 (43 U.S.C. §§ 1701 et seq.). However, section 701 of that Act also included a savings provision concerning R.S. 2477 roads that provided that "[n]othing in this Act, or in any amendment made by this Act, shall be construed as terminating any valid lease, permit, patent, right-of-way, or other land use right or authorization existing on [October 21, 1976]." (43 U.S.C. § 1701 note (Savings Provisions)) Therefore, valid R.S. 2477 rights-of-way continue to exist, and under existing state law, any board of county commissioners may locate and determine the width of those rights-of-way and may locate and open R.S. 2477 roads on those rights-of-way. (NRS 405.191)

Existing law also creates, in counties whose population is less than 100,000 (currently counties other than Clark and Washoe Counties), a board of county highway commissioners,

16 composed of the regularly elected and qualified county commissioners. (NRS 403.005,  
17 403.010, 403.020) A board of county highway commissioners has the authority to lay out and  
18 designate main, general and minor county roads and are required, upon so laying out and  
19 designating such roads, to create a county map showing the roads and their designations and  
20 to file copies of the map with the clerk of the board of county highway commissioners, the  
21 county clerk, the county recorder and the Department of Transportation. (NRS 403.170,  
22 403.190) **Section 1** of this bill provides that ~~if a map showing] the filing of the copies of the~~  
23 ~~map constitutes the establishment of the existence and location of~~ an R.S. 2477 right-of-  
24 ~~way [is filed with the Department of Transportation,]~~ **that is open for public use. Section 1**  
25 ~~also provides that~~ acceptance of the map by the Department constitutes ~~validation of the~~  
26 ~~R.S. 2477 right of way by the State of Nevada for the purpose of establishing]~~  
27 ~~acknowledgment by the Department of the establishment of~~ the existence and location of  
28 ~~#the# an~~ R.S. 2477 right-of-way ~~[, that is open for public use.~~ **Section 2** of this bill confers  
29 authority upon a board of county highway commissioners to locate and determine the width of  
30 an R.S. 2477 right-of-way and to open that right-of-way for public use for the purpose of  
31 designating county roads within the county and taking certain other authorized actions  
32 concerning the R.S. 2477 right-of-way.
