EXPLANATION – Matter in *bolded italics* is new; matter between brackets [omitted-material] is material to be omitted.

AN ACT relating to occupational diseases; revising provisions governing the presumption that certain occupational diseases arise out of the employment of certain persons; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law provides a presumption that certain occupational diseases,
2 including heart disease, lung disease, cancer and hepatitis, diagnosed after the
3 termination of the employment of a person in certain occupations, including as a
4 police officer, firefighter or arson investigator, arose out of the employment of the
5 person if the person was employed full-time, continuously for 5 years or more.
6 (NRS 617.453, 617.455, 617.457, 617.485, 617.487) This bill limits the benefits
7 available for certain occupational diseases that arose out of such employment by
8 providing that the benefits are only available until the person is eligible for
9 Medicare unless the person began receiving benefits while employed or the person
10 ceased employment before reaching an age at which the person is eligible for an
11 unreduced retirement benefit.

12 Additionally, **sections 2 and 3** of this bill limit the ability of a person to file for
13 benefits for certain diseases of the lungs and heart. Under **sections 2 and 3**, a
14 person must file a claim for benefits within 5 years of ceasing employment if the
15 person ceases employment before reaching an age at which the person is eligible
16 for an unreduced retirement benefit.

17 The provisions of this bill apply only to a person hired on or after July 1, 2011.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN

3 ~~months by the number of full years of his or her employment.]~~

4 ➡ This rebuttable presumption must control the awarding of
5 benefits pursuant to this section unless evidence to rebut the
6 presumption is presented.
