AN ACT relating to air pollution; revising provisions governing the frequency of required inspections of the emissions of certain motor vehicles; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law requires the State Environmental Commission, in cooperation with
2 the Department of Motor Vehicles and any local air pollution control agency, to
3 adopt regulations for the control of emissions from motor vehicles in areas
4 designated by the Commission. (NRS 445B.770) Existing law also imposes
5 limitations on compulsory inspection programs established by the Commission.
6 (NRS 445B.795)

7 This bill further limits the authority of the State Environmental Commission by
8 requiring that the regulations adopted by the Commission require: (1) the initial
9 inspection of a new passenger car or new light-duty motor vehicle 3 years after the
10 initial registration of the vehicle or when the odometer of the vehicle registers
11 100,000 miles, whichever occurs first; and (2) the subsequent inspection of a
12 passenger car or light-duty motor vehicle not more often than every 2 years or
13 when the odometer of the vehicle registers 100,000 miles since the most recent
14 inspection, whichever occurs first, except that if a vehicle fails a required
15 inspection, the regulations must provide for annual inspections of the vehicle
16 thereafter.
