Legislative Counsel's Digest:

Existing law requires the Commission on Professional Standards in Education to adopt regulations prescribing the qualifications for licensing teachers and other educational personnel in this State. The regulations govern the issuance of a regular license and a special qualifications license. (NRS 391.019) **Section 2** of this bill requires the Commission to adopt regulations prescribing the qualifications for licensing teachers and administrators pursuant to an alternative route to licensure and sets forth certain requirements that must be specified in those regulations, including: (1) that the required education and training may be provided by any qualified provider which has been approved by the Commission, including institutions of higher education and other providers that operate independently of an institution of higher education; (2) that the education and training required under the alternative route to licensure may be completed in 2 years or less; and (3) that, upon completion by a person of the education and training required under the alternative route to licensure and the satisfaction of all other requirements for licensure, the person must be issued a regular license.

Under existing law, the Commission is required to adopt regulations providing for the reciprocal licensure of educational personnel from other states. (NRS 391.032) **Section 5** of this bill requires the regulations governing reciprocal licensure to include reciprocal licensure of persons who obtained a license pursuant to an alternative route to licensure.
