AN ACT relating to taxicabs; requiring the Taxicab Authority to establish a system that uses radio or other electronic means to track taxicabs; providing for the use of an electronic security seal for a taximeter under certain circumstances; requiring the establishment of standards for a daily trip sheet in electronic form; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Under existing law, the Taxicab Authority regulates taxicabs in a county whose
2 population is 400,000 or more (currently Clark County) and in any county that, by
3 ordinance, has placed itself under the jurisdiction of the Taxicab Authority. (NRS
4 706.881) The Taxicab Authority is responsible, among other things, for
5 determining whether conditions in a county require the establishment of a system of
6 allocations of the number of taxicabs allowed to operate in the county. If so, the
7 Taxicab Authority is responsible for allocating the taxicabs among the existing
8 operators of taxicab businesses in the county. The Taxicab Authority also performs
9 allocations if it subsequently determines that circumstances require a permanent
10 increase in the number of taxicabs allocated. (NRS 706.8824) Similarly, the
11 Taxicab Authority determines whether circumstances require a temporary increase
12 in the allocations and, if so, the additional number of taxicabs to be allocated, the
13 limits on their operations and the duration of the temporary increase. (NRS
14 706.88245) **Section 1** of this bill requires the Taxicab Authority to establish by
15 regulation a system that uses radio or other electronic means to track taxicabs to
16 monitor, audit and enforce the allocations of taxicabs made by the Taxicab
17 Authority.

18 Under existing law, each taxicab must be equipped with a taximeter that clearly
19 displays the fare, the miles traveled and certain other information. After
20 installation, the taximeter is sealed by the Administrator of the Taxicab Authority.
21 (NRS 706.8836) **Section 2** of this bill provides that the Administrator will

* S B 3 2 1 *

determine the kind of seal to be used, and also specifies that the seal may include an electronic security seal that is encrypted and protected by a password.

Existing law requires that an operator of a taxicab business subject to the jurisdiction of the Taxicab Authority require its drivers to fill out daily trip sheets that include information such as the time, place of origin and destination of each trip. The operator of the taxicab business is required to maintain the daily trip sheets for at least 3 years and make them available to the Administrator for inspection. (NRS 706.8844) **Section 3** of this bill requires the Administrator to establish requirements for the use of an electronic version of a daily trip sheet. If an operator of a taxicab business requires its drivers to keep the daily trip sheet in electronic form, **section 3** requires the operator to maintain the resulting information in a secure database and provide the Administrator with access to the information in the database.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 706 of NRS is hereby amended by adding thereto a new section to read as follows:
