EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets [~~omitted material~~] is material to be omitted.

AN ACT relating to hypodermics; removing hypodermic devices from the list of paraphernalia that is prohibited for delivery, sale, possession, manufacture or use in this State; providing that hypodermic devices may be sold without a prescription if not prohibited by federal law; repealing a provision which makes it a crime to misuse a hypodermic device; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law prohibits the delivery, sale, possession or manufacture of certain
2 drug paraphernalia when the person engaging in the act reasonably should know
3 that it will be used for an illegal purpose. (NRS 453.560) Existing law further
4 makes it a felony for a person to deliver drug paraphernalia to a minor who is at
5 least 3 years younger than the person. (NRS 453.562) **Section 1** of this bill removes
6 hypodermic devices from the list of items that may be found to constitute drug
7 paraphernalia. Existing law authorizes the sale of hypodermic devices which are
8 not restricted by federal law to being sold by prescription to be sold without a
9 prescription for certain limited purposes. (NRS 454.480) **Section 4** of this bill
10 removes the restrictions so that hypodermic devices may be sold without a
11 prescription for any purpose so long as the sale of such devices is not restricted by
12 federal law. **Section 5** of this bill repeals a provision which makes it a misdemeanor
13 to use or allow the use of a hypodermic device for a purpose other than that for
14 which it was purchased, because the specific uses were removed in **section 4**.

1 WHEREAS, The Human Immunodeficiency Virus, Hepatitis and
2 other infectious diseases that may be transmitted through the use of
3 unsterile hypodermic devices such as syringes and needles pose a
4 major health threat in the United States, causing thousands of deaths
5 and millions of dollars in preventable health care costs each year;
6 and

7 WHEREAS, The lack of availability of sterile hypodermic
8 devices is a major cause of this serious health threat; and

WHEREAS, Hundreds of studies have demonstrated that making sterile hypodermic devices available to persons who inject drugs reduces the spread of infectious disease and does not encourage drug use; and

WHEREAS, The trend among states has been to deregulate the possession, sale and use of hypodermic devices and to make such devices more accessible; and

WHEREAS, Increasing access to sterile hypodermic devices is necessary to control the spread of life-threatening infectious diseases; now, therefore,

**THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
