Legislative Counsel's Digest:

In 2010, Congress passed and President Obama signed into law the Patient Protection and Affordable Care Act. (Pub. L. No. 111-148) The bill was modified shortly thereafter by the Health Care and Education Reconciliation Act of 2010. (Pub. L. No. 111-152) Collectively, the Patient Protection and Affordable Care Act and its modifications in the Health Care and Education Reconciliation Act constitute a major federal reform of the health care system.

This bill requires the creation of a subcommittee of the Legislative Committee on Health Care to oversee the implementation of federal health care reform. The Subcommittee on Health Care Reform must consist of three members, including at least one from each House of the Legislature and one from the minority political party, appointed by the Chair of the Legislative Committee on Health Care. The Subcommittee is required to review the implementation of federal health care reform and is authorized to make recommendations concerning its effective implementation. State agencies responsible for the administration of federal health care reform are required to cooperate with the Subcommittee and to provide periodic reports to the Subcommittee concerning the implementation of federal health care reform.
