9 Task Force is similar to an interim commission that is being recommended for
10 creation in the State of Utah to study issues relating to the transfer of public lands
11 in Utah from the Federal Government to the State of Utah. (House Bill No. 148,
12 2012 Utah Laws, ch. 353, § 5)

1 WHEREAS, Unlike the eastern states that received dominion over
2 their lands upon joining the Union, the western states have been
3 placed in an inferior position as a result of the Federal Government
4 withholding a significant portion of land from those states as a
5 condition of admission to the Union; and

7 WHEREAS, According to the Congressional Research Service, as
8 of 2010, the Federal Government manages and controls
9 approximately 640 million acres, or about 28 percent of the 2.27
10 billion acres, of land in the United States; and

11 WHEREAS, The highest concentration of land managed and
12 controlled by the Federal Government is in Alaska (61.8 percent)
13 and the 11 coterminous western states, namely Arizona (42.3
14 percent), California (47.7 percent), Colorado (36.2 percent), Idaho
15 (61.7 percent), Montana (28.9 percent), Nevada (81.1 percent), New
16 Mexico (34.7 percent), Oregon (53.0 percent), Utah (66.5 percent),
17 Washington (28.5 percent) and Wyoming (48.2 percent); and

18 WHEREAS, In contrast, the Federal Government only manages
19 and controls 4 percent of the land in the states east of those western
20 states; and

21 WHEREAS, The state with the highest percentage of lands within
22 its boundaries that is managed and controlled by the Federal
23 Government is Nevada, with over 80 percent of its lands being
24 managed and controlled by various federal agencies, including the
25 Bureau of Land Management, the National Park Service, the United
26 States Forest Service, the United States Fish and Wildlife Service
27 and the Department of Energy; and

28 WHEREAS, Increased control by the State of Nevada over the
29 public lands within its borders would benefit the residents of
30 Nevada significantly by allowing the State to balance the economic,
31 recreational and other critical interests of its residents, with special
32 emphasis on the multiple uses that are allowed presently on the
33 public lands; and

34 WHEREAS, In March 2012, legislation was enacted in the State
35 of Utah that, among other things, requires the Federal Government
36 to turn over management and control of the public lands in Utah to
37 the State of Utah and requires the study of various issues that may
38 arise during such a transfer; and

1 Government turning over management and control of certain public
2 lands to the western states; and

3 WHEREAS, In light of the magnitude of federal management and
4 control of public lands in Nevada, a study by the State of Nevada, in
5 contemplation of Congress turning over the management and
