

CHAPTER.....

AN ACT relating to special license plates; revising the circumstances under which the Director of the Department of Motor Vehicles must issue certain notices and orders to stop the issuance of those plates; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, the Director of the Department of Motor Vehicles is required to provide a notice to the entity to which a special license plate relates if, on October 1, less than a certain number of motor vehicles have that special license plate affixed. If the number of vehicles with the special license plate affixed remains below a certain number on December 31, the Director is required to order the Department to stop issuing that special license plate and to allow current holders to keep and renew their existing plates. For special license plates designed and prepared pursuant to NRS 482.367002, the number of vehicles with the special license plate affixed that is required to prevent the Director from issuing an order to stop producing that special license plate is 1,000; for special license plates required to be issued by certain other sections of NRS, that number must be at least equal to the number set forth in the section that requires the issuance of the plate. (NRS 482.367008) This bill sets the number of vehicles that must have the special license plate affixed to prevent the Director from issuing an order to stop producing that special license plate at 1,000 for all special license plates.

Whenever the total number of separate designs of special license plates issued by the Department at any one time is less than 30, the Department shall issue a number of additional designs of special license plates that have been authorized by an act of the Legislature or the application for which has been approved by the Commission on Special License Plates pursuant to subsection 5 of NRS 482.367004, not to exceed a total of 30 designs issued by the Department at any one time. Such additional designs must be issued by the Department in accordance with the chronological order of their authorization or approval.

3. Except as otherwise provided in this subsection, on October 1 of each year the Department shall assess the viability of each separate design of special license plate that the Department is currently issuing by determining the total number of validly registered motor vehicles to which that design of special license plate is affixed. The Department shall not determine the total number of validly registered motor vehicles to which a particular design of special license plate is affixed if:

6. If, on December 31 of the same year in which notice was provided pursuant to subsections 4 and 5, the total number of validly registered motor vehicles to which a particular design of special license plate is affixed is ~~†~~
