AN ACT relating to public records; requiring the disclosure to the public, under certain circumstances, of the individual electronic mail address or telephone number, or both, of a member of certain public bodies; providing exceptions; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law provides for the disclosure by a governmental entity of a person's individual electronic mail address or telephone number if the person provides the address or telephone number to that entity in the course of an existing business or contractual relationship with the entity, or in the course of seeking to establish such a relationship. In addition, if a person provides his or her electronic mail address or telephone number to a governmental entity for the purpose of or in the course of communicating with that entity, existing law authorizes the entity to maintain this information in a database. Except as provided by specific statute, any such database is generally confidential, is not a public record and must not be disclosed in its entirety. (NRS 239B.040)

Section 1 of this bill requires a governmental entity, upon the request of any person and with certain exceptions, to disclose the individual electronic mail address or telephone number, or both, of a member of certain public bodies, if the person who is the subject of the request has previously provided that information to the governmental entity. Pursuant to section 1, the governmental entity's record of the information is a "public record" for purposes of the statutory provisions governing public records. (Chapter 239 of NRS) Section 1 defines the term "public body" to mean a public body subject to the Open Meeting Law (chapter 241 of NR\$), but also specifically includes the Legislature of the State of Nevada, the Legislative Commission, the Interim Finance Committee and other legislative
