EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to motorcycles; revising provisions pertaining to trimobiles; revising provisions relating to the equipment that is required on a motorcycle or moped operating on the highways of this State; revising provisions concerning the protective equipment that a person is required to wear when driving or riding on a motorcycle or moped; increasing the amount the Director of the Department of Public Safety is authorized to charge for a course of motorcycle safety; revising other provisions related to certain courses of motorcycle safety; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Under existing law, a person driving a trimobile is required to hold a driver's
2 license, but is not required to hold a motorcycle driver's license or a driver's license
3 with a motorcycle endorsement. (NRS 486.061) Existing law also requires a person
4 driving or riding on a trimobile to wear protective glasses, goggles or a face shield,
5 but does not require such a person to wear protective headgear. (NRS 486.231) A
6 trimobile is defined in existing law as a motor vehicle designed to travel with three
7 wheels in contact with the ground, two of which are power driven. (NRS 482.129,
8 486.057) **Sections 1 and 2** of this bill revise the definition of trimobile by removing
9 the requirement that two of the wheels be power driven.

10 Existing law requires the Department of Motor Vehicles to adopt standards for
11 protective headgear and protective glasses, goggles or face shields to be worn by
12 drivers and passengers of motorcycles, and transparent windscreens for
13 motorcycles. (NRS 486.231) **Section 3** of this bill removes the requirement for the

14 Department to adopt standards for protective glasses, goggles, face shields and
15 transparent windscreens.

16 Existing law requires a motorcycle or moped that is driven on the highways of
17 this State to be equipped with certain equipment, including, for example, head
18 lamps and rear reflectors, and provides for height restrictions for handlebars. (NRS
19 486.201, 486.281, 486.291) **Section 4** of this bill increases the maximum number of
20 allowable head lamps on a motorcycle or moped, **section 5** of this bill removes the
21 minimum height requirement for rear reflectors on a motorcycle or moped, and
22 **section 8** of this bill repeals the restriction on the height of the handlebars on a
23 motorcycle or moped.

24 Existing law requires the Director of the Department of Public Safety to
25 establish a Program for the Education of Motorcycle Riders and provides that
26 money in the Account for the Program may be used to pay the expenses of the
27 Program or for any other purpose authorized by the Legislature. (NRS 486.372)
28 **Section 6** of this bill removes the authorization for money in the Account to be
29 used for any other purpose authorized by the Legislature. Existing law also
30 authorizes certain residents of this State to enroll in the Program and authorizes the
31 Director to establish a fee of not more than \$100 for the Program. (NRS 486.373)
32 **Section 7** of this bill raises the limit of the fee to \$200 and allows for the
33 enrollment in the Program of a person who is a member of the Armed Forces of the
34 United States stationed at a military installation located in this State and who is
35 authorized by the person's state of residency to drive a motorcycle.
