AN ACT relating to wildlife; requiring that the wildlife in this State
be managed according to the best science available;
requiring the Board of Wildlife Commissioners to
establish policies for certain programs, activities and
research relating to predatory wildlife; and providing
other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, the Nevada Legislature has declared that wildlife in this State is part of the natural resources belonging to the people of the State of Nevada and that preserving, protecting, managing and restoring wildlife in this State contributes immeasurably to the aesthetic, recreational and economic aspects of those natural resources. (NRS 501.100) **Section 1** of this bill revises the legislative declaration to require that the wildlife in this State be managed according to the best science available.

Under existing law, in addition to the fee for a game tag, the Department of Wildlife charges an additional fee of \$3 for processing each application for a game tag, the revenue from which must be deposited into the Wildlife Fund Account in the State General Fund and be used by the Department for costs related to: (1) programs for the management and control of injurious predatory wildlife; (2) wildlife management activities relating to the protection of certain game animals and wildlife habitat; and (3) research to determine successful techniques for managing and controlling predatory wildlife. Any program developed or wildlife management activity or research conducted must be developed or conducted under the guidance of the Board of Wildlife Commissioners. (NRS 501.181, 502.253)

Section 2 of this bill requires the Commission, in providing guidance relating to any wildlife management activity, the development of a program to control any species of predatory wildlife or any research concerning that species, to establish a policy for the activity, program or research that specifies the goals and required results of the activity, program or research.
