

CHAPTER.....

AN ACT relating to education; requiring instruction in the administration of cardiopulmonary resuscitation and the use of an automated external defibrillator to be included, to the extent money is available for this purpose, within the course of study for health for pupils enrolled in middle schools, junior high schools or high schools; providing exceptions for certain pupils; requiring private secondary schools to include similar instruction, to the extent money is available for this purpose, in a course of study for health; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law designates, in addition to the core academic subjects that must be taught in all public schools, the following subjects that must be taught as applicable for grade levels: (1) the arts; (2) computer education and technology; (3) health; and (4) physical education. (NRS 389.018) The State Board of Education is required to adopt regulations establishing the courses of study for the prescribed academic subjects, including health. (NRS 389.0185) **Sections 1 and 2** of this bill require a course of study in health established by the State Board to include, for pupils enrolled in middle schools, junior high schools or high schools and to the extent money is available for this purpose, instruction in the administration of cardiopulmonary resuscitation and the use of an automated external defibrillator. The requirements also apply, to the extent money is available for this purpose, to charter schools that enroll pupils at those grade levels. If instruction is offered, a pupil who is enrolled in a course of study of health through a program of distance education or a pupil with a disability who cannot perform the tasks included in the instruction is not required to complete the instruction to pass the course of study in health.

Existing law requires a private school to provide instruction in the courses of study prescribed by the State Board or courses of study prepared by the private school and approved by the State Board. (NRS 394.130) **Section 3** of this bill requires a private secondary school which provides a course of study in health to include in the course of study, to the extent money is available for this purpose, instruction in the administration of cardiopulmonary resuscitation and the use of an automated external defibrillator for the grade levels determined by the private school. The same exemptions as prescribed by **section 2** apply to a pupil enrolled in a private school through a program of distance education and a pupil with a disability.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. NRS 389.018 is hereby amended to read as follows:

389.018 1. The following subjects are designated as the core academic subjects that must be taught, as applicable for grade levels, in all public schools, the Caliente Youth Center, the Nevada Youth Training Center and any other state facility for the detention of children that is operated pursuant to title 5 of NRS:

- (a) English, including reading, composition and writing;
- (b) Mathematics;
- (c) Science; and
- (d) Social studies, which includes only the subjects of history, geography, economics and government.

2. Except as otherwise provided in this subsection, a pupil enrolled in a public high school must enroll in a minimum of:

- (a) Four units of credit in English;
- (b) Four units of credit in mathematics, including, without limitation, Algebra I and geometry, or an equivalent course of study that integrates Algebra I and geometry;
- (c) Three units of credit in science, including two laboratory courses; and

(d) Three units of credit in social studies, including, without limitation:

- (1) American government;
- (2) American history; and
- (3) World history or geography.

↪ A pupil is not required to enroll in the courses of study and credits required by this subsection if the pupil, the parent or legal guardian of the pupil and an administrator or a counselor at the school in which the pupil is enrolled mutually agree to a modified course of study for the pupil and that modified course of study satisfies at least the requirements for a standard high school diploma or an adjusted diploma, as applicable.

3. Except as otherwise provided in this subsection, in addition to the core academic subjects, the following subjects must be taught as applicable for grade levels and to the extent practicable in all public schools, the Caliente Youth Center, the Nevada Youth Training Center and any other state facility for the detention of children that is operated pursuant to title 5 of NRS:

- (a) The arts;

- (b) Computer education and technology;
- (c) Health; and
