AN ACT relating to school property; authorizing the board of trustees of a school district to donate surplus personal property of the school district to another school district; revising provisions relating to the duties of oversight panels for school facilities; revising provisions governing the submission of a biennial report to the Legislature with written recommendations for financing the costs of construction of school facilities by oversight panels for school facilities; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law authorizes the board of trustees of a school district to donate
2 surplus personal property of the school district to any charter school that is located
3 within the school district without regard to certain notice, bidding, auction or other
4 requirements relating to the disposal of personal property of a local government.
5 (NRS 332.185) **Section 2** of this bill authorizes a board of trustees of a school
6 district likewise to donate surplus personal property to other school districts in this
7 State without regard to the notice, bidding, auction or other requirements relating to
8 the disposal of personal property of a local government. **Section 1** of this bill
9 authorizes a board of trustees of a school district to accept a donation of surplus
10 personal property of another school district.

11 Existing law requires the board of trustees of a school district in a county
12 whose population is 100,000 or more (currently Clark and Washoe Counties) to
13 establish an oversight panel for school facilities. (NRS 393.092) Such an oversight
14 panel is required to submit biennially to the Legislature written recommendations

15 for financing school construction costs. In a county whose population is less than
16 100,000 (currently all counties other than Clark and Washoe Counties), the board
17 of trustees of the school district is required to submit biennially to the Legislature
18 written recommendations for financing school construction costs. (NRS 393.097)
19 Existing law also authorizes a school district to issue general obligation bonds, after
20 obtaining the approval of the county's debt management commission, if the
21 issuance of the bonds is not expected to result in an increase in the existing property
22 tax levy and the electors have approved a question that authorizes the issuance of
23 bonds for 10 years after the date of approval. (NRS 350.020) In addition to the
24 approval of the debt management commission, in a county whose population is
25 100,000 or more, the school district must obtain the approval of the oversight panel
26 for school facilities. (NRS 350.020, 393.097) **Section 6** of this bill provides that an
27 oversight panel for school facilities is required to submit a biennial report to the
28 Legislature with recommendations for financing school construction costs only if
29 the oversight panel has approved the issuance of such general obligation bonds. The
30 report must be submitted biennially during the period in which those bonds are
31 outstanding.

32 **Section 4** of this bill revises the circumstances under which an oversight panel
33 for school facilities is required to hold meetings.
