AN ACT relating to justice courts; authorizing the board of county commissioners of larger counties to provide by resolution for a circuit justice of the peace to serve two or more small townships; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides that there must be one justice court in each township in this State, for which there must be elected at least one justice of the peace by the qualified electors of the township. (NRS 4.020) Existing law prohibits a person from being a candidate for the office of justice of the peace of a township unless the person has actually resided in the township for at least the 30 days immediately preceding the date of the close of filing of declarations of candidacy or acceptances of candidacy for the office. (NRS 281.050, 293.1755)

Section 1 of this bill authorizes the board of county commissioners of a county whose population is 700,000 or more (currently Clark County) to provide by resolution that two or more small townships, whose population is less than 100,000, are to be served by one circuit justice of the peace who is elected by the qualified electors of the small townships to be served by the circuit justice of the peace. Section 2 of this bill requires a candidate for the office of circuit justice of the peace to have actually resided in one of the small townships to be served by the circuit justice of the peace for at least the 30 days immediately preceding the date of the close of filing of declarations of candidacy or acceptances of candidacy for the office. Under section 1, a circuit justice of the peace elected under this bill is deemed to be the justice of the peace of each small township he or she serves.
