

Assembly Bill No. 59—Committee
on Government Affairs

CHAPTER.....

AN ACT relating to public works; formalizing and renaming existing components of the State Public Works Division of the Department of Administration to create a Public Works - Compliance and Code Enforcement Section and a Public Works - Professional Services Section within the Division; providing regulatory authority for the Administrator of the Division and the State Public Works Board of the Division; eliminating a requirement that a proposal for the construction of a state building include operating costs for personnel and other expenses of operation; repealing a requirement to report to the Legislature annually on projects of construction of state buildings that are financed by certain bonds or obligations; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law creates the State Public Works Division, consisting of the Administrator of the Division, the Buildings and Grounds Section and the State Public Works Board, within the Department of Administration. (NRS 341.017) **Section 1** of this bill formalizes and renames existing components of the State Public Works Division to create a Public Works - Compliance and Code Enforcement Section and a Public Works - Professional Services Section within the Division. **Section 2** of this bill provides that these two sections will each be led by one of the existing deputy administrators.

Existing law grants the Administrator such powers as may be necessary to fulfill his or her functions. (NRS 341.110) **Section 4** of this bill requires the Administrator to adopt such regulations as he or she determines are necessary for the Buildings and Grounds Section and to recommend to the Board such regulations as he or she determines are necessary for the Public Works - Compliance and Code Enforcement Section and the Public Works - Professional Services Section. **Section 4** also requires the Board to consider the Administrator's recommendations and to adopt such regulations as it determines are necessary for the Public Works - Compliance and Code Enforcement Section and the Public Works - Professional Services Section.

Existing law requires that a proposal for the construction of a state building include operating costs for personnel and other expenses of operation for the building. (NRS 341.151) **Section 7** of this bill eliminates that requirement.

Existing law requires that the Division compile a report concerning projects of construction of state buildings that are financed by general obligation bonds, revenue bonds or medium-term obligations for each fiscal year and submit this report annually to the Legislature. (NRS 341.129) **Section 14** of this bill repeals that requirement.
