## CHAPTER.....

AN ACT relating to pharmacy; revising provisions authorizing a pharmacist or practitioner to indicate on a prescription label if a generic drug has been substituted for a drug prescribed by brand name; and providing other matters properly relating thereto.

### **Legislative Counsel's Digest:**

Existing law authorizes a pharmacist or practitioner to indicate on the label of a prescription that a generic drug has been substituted for a drug prescribed by brand name unless the indication is prohibited by the practitioner who prescribed the drug. (NRS 639.2587) This bill requires a pharmacist or practitioner to make such an indication unless, at the time the initial substitution of the generic drug is made, the person for whom the drug is dispensed elects not to have such an indication written or typed on the label. This bill further provides that an election by the person to indicate or not indicate a substitution on the label applies both to the fill and each refill of the same prescription.
