AN ACT relating to pharmacy; revising provisions authorizing a pharmacist or practitioner to indicate on a prescription label if a generic drug has been substituted for a drug prescribed by brand name; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

1 Existing law authorizes a pharmacist or practitioner to indicate on the label of a  
2 prescription that a generic drug has been substituted for a drug prescribed by brand  
3 name unless the indication is prohibited by the practitioner who prescribed the  
4 drug. (NRS 639.2587) This bill requires a pharmacist or practitioner to make such  
5 an indication unless, at the time the initial substitution of the generic drug is made,  
6 the person for whom the drug is dispensed elects not to have such an indication  
7 written or typed on the label. This bill further provides that an election by the  
8 person to indicate or not indicate a substitution on the label applies both to the fill  
9 and each refill of the same prescription.
