AN ACT relating to service contracts; allowing a provider to qualify for the issuance of a certificate of registration by maintaining a reserve account and depositing certain security with the Commissioner of Insurance; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, in order to be issued a certificate of registration, a provider who wishes to issue, sell or offer for sale any service contracts in this State must: (1) purchase a contractual liability insurance policy which insures the obligations of each service contract that the provider issues, sells or offers for sale; or (2) maintain, or be a subsidiary of a parent company that maintains, a net worth or stockholders' equity of at least \$100,000,000. (NRS 690C.170) Without revising those provisions of existing law, this bill reenacts provisions, repealed in the 2011 Legislative Session, that allow a provider to qualify for the issuance of a certificate of registration by: (1) maintaining a reserve account that contains at all times at least 40 percent of the gross consideration received by the provider for any unexpired contracts, less any claims paid on those contracts; and (2) depositing security with the Commissioner of Insurance in the amount of ~~(\$25,000 or \$1~~ ***\$50,000 or 10*** percent of the gross consideration received by the provider for any unexpired service contracts, less any claims paid on those contracts, whichever is greater.
