Legislative Counsel's Digest:

Existing law authorizes the Director of the Department of Transportation to restrict the use of, or close, a highway under certain circumstances, including when the Director considers the closing or restriction of use necessary for the protection of the public. (NRS 408.210) Existing law also requires the Department to consider certain factors and receive approval from the Board of Directors of the Department before reducing the maximum weight limits for vehicles on a highway under its jurisdiction. (NRS 484D.655) This bill limits the scope of that requirement by making it applicable only to a highway or a portion of a highway which is designated as a scenic route. Further, this bill : (1) authorizes the Director to reduce the maximum weight limits for vehicles on a highway under the jurisdiction of the Department, including a bridge located on the highway, without regard to the considerations and approval required under existing law if the Director considers that restriction of use necessary for the protection of the public. The Director is also authorized, under certain circumstances, to reduce the maximum weight limits for vehicles on a bridge located on such a highway without regard to the considerations and approval required under existing law.; (2) limits a reduction in the maximum weight limits on such a highway to a period of not more than 180 days; and (3) requires the Director to provide, within a specified period, an informational report to the Board of Directors that describes a reduction made to the maximum weight limits on such a highway.

35 **Sec. 2. *NRS 408.210 is hereby amended to read as follows:***

36 408.210 1. *++ The Except as otherwise provided in NRS 484D.655, the*
37 Director of the Department of Transportation may restrict the use of, or close, any
38 highway whenever the Director considers the closing or restriction of use
39 necessary:

40 (a) For the protection of the public.

41 (b) For the protection of such highway from damage during storms or during
42 construction, reconstruction, improvement or maintenance operations thereon.

43 (c) To promote economic development or tourism in the best interest of the
44 State or upon the written request of the Executive Director of the Office of
45 Economic Development or the Director of the Department of Tourism and Cultural
46 Affairs.

47 2. The Director of the Department of Transportation may:

48 (a) Divide or separate any highway into separate roadways, wherever there is
49 particular danger to the traveling public of collisions between vehicles proceeding

1 in opposite directions or from vehicular turning movements or cross-traffic, by
2 constructing curbs, central dividing sections or other physical dividing lines, or by
3 signs, marks or other devices in or on the highway appropriate to designate the
4 dividing line.

5 (b) Lay out and construct frontage roads on and along any highway or freeway
6 and divide and separate any such frontage road from the main highway or freeway
7 by means of curbs, physical barriers or by other appropriate devices.

8 3. The Director may remove from the highways any unlicensed encroachment
9 which is not removed, or the removal of which is not commenced and thereafter
10 diligently prosecuted, within 5 days after personal service of notice and demand
11 upon the owner of the encroachment or the owner's agent. In lieu of personal
12 service upon that person or agent, service of the notice may also be made by
13 registered or certified mail and by posting, for a period of 5 days, a copy of the
14 notice on the encroachment described in the notice. Removal by the Department of
15 the encroachment on the failure of the owner to comply with the notice and demand
16 gives the Department a right of action to recover the expense of the removal, cost
17 and expenses of suit, and in addition thereto the sum of \$100 for each day the
18 encroachment remains beyond 5 days after the service of the notice and demand.

19 4. If the Director determines that the interests of the Department are not
20 compromised by a proposed or existing encroachment, the Director may issue a
21 license to the owner or the owner's agent permitting an encroachment on the
22 highway. Such a license is revocable and must provide for relocation or removal of
23 the encroachment in the following manner. Upon notice from the Director to the
24 owner of the encroachment or the owner's agent, the owner or agent may propose a
25 time within which he or she will relocate or remove the encroachment as required.
26 If the Director and the owner or the owner's agent agree upon such a time, the
27 Director shall not himself or herself remove the encroachment unless the owner or
28 the owner's agent has failed to do so within the time agreed. If the Director and the
29 owner or the owner's agent do not agree upon such a time, the Director may
30 remove the encroachment at any time later than 30 days after the service of the
31 original notice upon the owner or the owner's agent. Service of notice may be made
32 in the manner provided by subsection 3. Removal of the encroachment by the
33 Director gives the Department the right of action provided by subsection 3, but the
34 penalty must be computed from the expiration of the agreed period or 30-day
35 period, as the case may be.

36 **[See. 2.] Sec. 3.** This act becomes effective upon passage and approval. |
