Legislative Counsel's Digest:

The federal Patient Protection and Affordable Care Act provides incentives for states to offer home and community-based services as an alternative to nursing homes for Medicaid recipients in need of long-term care. (Patient Protection and Affordable Care Act, Pub. L. No. 111-148, § 10202, 124 Stat. 119, 923-27) Existing law requires the Department of Health and Human Services to establish and administer a program to provide community-based services, including supported living services, to Medicaid recipients with physical disabilities. (NRS 422.395, 422.396, 422.397) Existing law also requires the Division of Mental Health and Developmental Services of the Department to adopt regulations governing the provision of jobs and day training services, which are services provided to persons with mental retardation or related conditions to enhance self-sufficiency and success in employment. (NRS 435.176, 435.220)

This bill directs the Legislative Committee on Health Care to conduct an interim study of the delivery of supported living services and jobs and day training services to recipients of Medicaid.
