Effect on the State: No.

~

EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets ~~[omitted material]~~ is material to be omitted.

AN ACT relating to contractors; requiring contractors to dispose of solid waste at a materials recovery facility under certain circumstances; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

This bill requires a contractor to dispose of certain solid waste produced by construction, demolition or similar work at a materials recovery facility that has been approved to operate pursuant to regulations of the State Environmental Commission, if such a facility is located within 30 miles of the site of the work.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 624 of NRS is hereby amended by adding thereto a new section to read as follows:

1. A contractor who undertakes the construction, alteration, repair, maintenance or demolition of any building, structure or other work of improvement shall dispose of the solid waste resulting from the work at a materials recovery facility, if a materials recovery facility is located within 30 miles of the site of the work.

2. As used in this section, "materials recovery facility" means a solid waste management facility that provides for the extraction from solid waste of recyclable materials, materials suitable for use as a fuel or soil amendment, or any combination of those materials, and that has been approved to operate in accordance with regulations adopted by the State Environmental Commission pursuant to NRS 444.560. The term does not include:

1 (a) A facility that receives only recyclable materials that have been separated
2 at the source of waste generation if further processing of the materials generates
3 less than 10 percent waste residue by weight on an annual average;

4 (b) A salvage yard for the recovery of used motor vehicle parts;

5 (c) A facility that receives, processes or stores only concrete, masonry waste,
6 asphalt pavement, brick, uncontaminated soil or stone for the recovery of
7 recyclable materials; or

8 (d) A facility that recovers less than 10 percent by weight of the recyclable
9 material from the solid waste received on an annual average.

10 Sec. 2. 1. There is hereby appropriated from the State General Fund to
11 the Legislative Fund the sum of \$10,000 for the purpose of contracting with a
12 consultant to conduct a study concerning the promotion of the use of materials
13 recovery facilities. The study must include, without limitation, an assessment
14 of the economic and environmental impacts of a program for requiring the
15 disposal of solid waste resulting from the work of a contractor who undertakes
16 the construction, alteration, repair, maintenance or demolition of any building,
17 structure or other work of improvement in this State.

18 2. Any remaining balance of the appropriation made by subsection 1
19 must not be committed for expenditure after June 30, 2015, by the entity to
20 which the appropriation is made or any entity to which money from the
21 appropriation is granted or otherwise transferred in any manner, and any
22 portion of the appropriated money remaining must not be spent for any
23 purpose after September 18, 2015, by either the entity to which the money was
24 appropriated or the entity to which the money was subsequently granted or
25 transferred, and must be reverted to the State General Fund on or before
26 September 18, 2015.
