AN ACT relating to off-highway vehicles; authorizing the operation of an off-highway vehicle for the purposes of display, demonstration, maintenance, sale or exchange under certain circumstances; requiring the Department of Motor Vehicles to furnish special plates for an off-highway vehicle under certain circumstances; revising provisions governing the registration and operation of an off-highway vehicle and the licensing of an off-highway dealer, long-term lessor, short-term lessor and manufacturer; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law allows a manufacturer, distributor, dealer or rebuilder of motor vehicles to operate vehicles for the purposes of display, demonstration, maintenance, sale or exchange if the person attaches special plates to the motor vehicle. (NRS 482.320) The Department of Motor Vehicles provides those special plates to the person upon issuance of a license certificate. (NRS 482.330) **Sections 2 and 3** of this bill set forth similar provisions applicable to dealers, lessors and manufacturers of off-highway vehicles.

Existing law exempts certain off-highway vehicles from registration requirements. (NRS 490.082) **Section 4** of this bill exempts from registration any off-highway vehicle: (1) operated solely in an organized race, festival or other event conducted under the auspices of a sanctioning body or by permit; (2) operated or stored on privately owned or leased land; (3) operated while engaged in an approved search-and-rescue operation; or (4) that has a displacement of not more than 70 cubic centimeters.

Existing law requires that any off-highway vehicle operated on a highway must have at least one headlamp that illuminates objects at least 500 feet ahead of the

* S B 1 0 9 *

17 vehicle and at least one tail lamp that is visible from at least 500 feet behind the
18 vehicle. (NRS 490.120) **Section 5** of this bill exempts an off-highway vehicle from
19 this requirement when operated during daylight hours on a highway designated by a
20 county for the operation of the off-highway vehicle without having the headlamp or
21 tail lamp.

22 Existing law requires that, in order to obtain a license as a dealer, long-term or
23 short-term lessor or manufacturer of off-highway vehicles, an applicant must: (1)
24 furnish a processing fee, a complete set of the applicant's fingerprints and written
25 permission authorizing the Department to forward those fingerprints to the Central
26 Repository for Nevada Records of Criminal History for submission to the Federal
27 Bureau of Investigation for its report; and (2) file with the Department a bond of
28 \$50,000 or make a deposit with the Department of \$50,000. (NRS 490.210,
29 490.270, 490.280) **Section 7** of this bill exempts from the fingerprinting
30 requirement any applicant who has previously met the same requirement as part of
31 an application for a license to operate as a transporter, manufacturer, distributor,
32 dealer, rebuilder, broker or salesperson of motor vehicles. (NRS 482.3163, 482.325,
33 482.333, 482.362) **Section 8** of this bill exempts from the bond or deposit
34 requirement any applicant who has previously filed a bond or made a deposit of
35 \$50,000 or more with the Department as part of an application for a license to
36 operate as a broker, manufacturer, distributor, dealer or rebuilder of motor vehicles.
