AN ACT relating to the practice of pharmacy; establishing provisions governing the dispensing of a therapeutically equivalent drug in place of a drug that is prescribed by a practitioner; providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides for the substitution by a pharmacist of a generic drug for a prescribed drug if the generic drug is biologically equivalent to and has the same active ingredients as the prescribed drug. (NRS 639.2583) **Section 1** of this bill authorizes a pharmacist to dispense a therapeutically equivalent drug in place of a prescribed drug under certain circumstances if the pharmacist has obtained the consent of the prescribing practitioner and the person presenting the prescription. The substitution of a generic drug differs from a therapeutic interchange authorized by **section 1** in that the therapeutically equivalent drug that is being dispensed is not biologically equivalent to the prescribed drug. **Sections 2-10** of this bill amend existing laws that reference the substitution of generic drugs to also reference therapeutic interchanges.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 639 of NRS is hereby amended by adding thereto a new section to read as follows:

1. A pharmacist who fills or refills a prescription shall not dispense a therapeutically equivalent drug in place of a drug that
