AN ACT relating to local governments; revising provisions governing contracting by school districts; revising provisions governing performance contracts for operating cost-savings measures; requiring the Office of Energy to provide local governments with information, educational resources and support relating to such performance contracts; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

1 Existing law authorizes local governments, including school districts, to enter  
2 into performance contracts for the purchase and installation of operating cost-  
3 savings measures to reduce costs related to energy, water and the disposal of waste,  
4 and related labor costs. (NRS 332.300-332.440) **Section 2** of this bill provides that  
5 before the board of trustees of a school district advertises for, requests or solicits  
6 bids or proposals for certain contracts, the board of trustees shall determine if the  
7 work to be performed pursuant to the contract will include an operating cost-  
8 savings measure and qualifies to be performed pursuant to a performance contract.  
9 **Section 2** also requires the board of trustees to prepare a report setting forth its  
10 determinations and make the report available to the public. **Section 2** further  
11 requires the report to include, without limitation, the reasons why the work to be

12 performed includes or does not include an operating cost-savings measure and, if  
13 the board of trustees determines not to award a performance contract for the work,  
14 the reasons for that determination.

15 **Section 3** of this bill requires the Office of Energy to: (1) provide local  
16 governments with information, educational resources and support relating to  
17 operating cost-savings measures and performance contracts; and (2) include on the  
18 Internet website maintained by the Office, if any, information and educational  
19 resources relating to operating cost-savings measures and performance contracts.
