EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets [~~omitted material~~] is material to be omitted.

AN ACT relating to air pollution; revising provisions governing the Pollution Control Account; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law establishes the Pollution Control Account, which is funded with certain fees collected from each authorized inspection station, authorized maintenance station, authorized station and fleet station. The money in the Pollution Control Account is distributed quarterly to local governmental agencies in nonattainment or maintenance areas for certain air pollutants in an amount equal to one-sixth of the amount received for certain forms distributed in each county. The remaining money in the Pollution Control Account in excess of \$1,000,000 is awarded in grants to local governmental agencies in nonattainment or maintenance areas for certain air pollutants for programs related to the improvement of the quality of the air. (NRS 445B.830) This bill eliminates the program of grants and requires instead that the money in the Pollution Control Account be distributed quarterly to local air pollution control agencies in nonattainment or maintenance areas for certain air pollutants in an amount equal to one-sixth of the amount received for certain forms distributed in each county. This bill requires that the remaining money in the Pollution Control Account in excess of \$1,000,000 be distributed to local air pollution control agencies in nonattainment or maintenance areas for certain air pollutants for programs related to the improvement of the quality of the air in proportion to the number of certain forms issued in each county.
