Legislative Counsel's Digest:

Existing law generally provides for the licensure and regulation of physicians, physician assistants, perfusionists and practitioners of respiratory care by the Board of Medical Examiners and of osteopathic physicians and physician assistants by the State Board of Osteopathic Medicine. Existing law further prescribes the powers and duties of each board. (Chapters 630 and 633 of NRS)

Existing law requires the Board of Medical Examiners to submit to the Governor and the Director of the Legislative Counsel Bureau for transmittal to the Legislature a biennial report compiling disciplinary action taken by the Board in the previous biennium against any physician for malpractice or negligence. (NRS 630.130) **Section 1** of this bill requires the Board of Medical Examiners to include in the biennial report any disciplinary action taken against a physician assistant, perfusionist or practitioner of respiratory care for malpractice or negligence.

Existing law authorizes the Board of Medical Examiners to issue a license by endorsement to practice medicine to certain qualified applicants who have been issued a license to practice medicine in another state or territory of the United States. (NRS 630.1605) **Section 2** of this bill prohibits the Board of Medical Examiners from issuing a license by endorsement to practice as an administrative physician except for certain limited purposes.

Existing law provides that certain acts committed by a person licensed by either the Board of Medical Examiners or the State Board of Osteopathic Medicine constitute grounds for disciplinary action or denial of licensure by the respective boards. (NRS 630.306, 630.3062, 630.3065, 630.30665, 630.342, 633.131, 633.511, 633.524) **Sections 5-8, 12 and 16-18** of this bill expand such grounds to those acts which are committed knowingly or willfully by a licensee.

Sections 9 and 19 of this bill provide that the testimony or reports of a person who conducts an examination to determine the competency of a physician on behalf of the Board of Medical Examiners, or an osteopathic physician or physician assistant on behalf of the State Board of Osteopathic Medicine, are not privileged communications.

Sections 10 and 20 of this bill revise provisions relating to the summary suspension of the license of a physician, perfusionist, physician assistant or practitioner of respiratory care by the Board of Medical Examiners, or the license of an osteopathic physician or physician assistant by the State Board of Osteopathic Medicine, pending the conclusion of a hearing to consider a formal complaint against the licensee. **Sections 10 and 20** also require the respective boards to reinstate the license of the licensee under certain circumstances.

Existing law establishes the procedure by which a formal complaint against a physician, perfusionist, physician assistant or practitioner of respiratory care is filed and reviewed by the Board of Medical Examiners. (NRS 630.339) **Section 11** of this bill: (1) authorizes the legal counsel for the Board of Medical Examiners to sign a formal complaint; (2) authorizes rather than requires a respondent to file an answer to a formal complaint; and (3) authorizes the Board or an investigative committee of the Board to proceed with adjudicating the complaint if a respondent fails timely to file an answer.

Existing law provides the manner in which the Board of Medical Examiners and the State Board of Osteopathic Medicine may make service of process upon a licensee. (NRS 630.344, 633.631) **Sections 13 and 22** of this bill authorize the President and Vice President of the Board of Medical Examiners and the State Board of Osteopathic Medicine to cause notice of certain actions to be published in certain newspapers if personal service on a licensee cannot be made. **Sections 13 and 22** further authorize the Board of Medical Examiners and the State Board of Osteopathic Medicine to make service of process on a licensee electronically if the licensee consents to electronic service of process in writing.
