

Senate Bill No. 217—Senator Manendo (by request)

CHAPTER.....

AN ACT relating to county roads; revising provisions relating to the manner of performing work for the construction and repair of roads and bridges in smaller counties; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Under existing law, in a county whose population is less than 100,000 (currently all counties other than Clark and Washoe Counties), the county commissioners of the county make up the board of county highway commissioners. (NRS 403.010) With exceptions for emergencies and instances in which a county performs its own work with day labor and county equipment, if the construction of any superstructure related to a county road may require the expenditure of \$500 or more, the board of county highway commissioners is required to advertise for bids and let contracts pursuant to certain competitive bidding provisions imposed on local government. (NRS 332.039, 403.490) **Section 1** of this bill provides that if the probable cost of road work does not exceed \$100,000, a county may advertise for bids and let contracts pursuant to chapter 332 or 338 of NRS or may perform its own work with county employees or day labor and using county equipment. If the probable cost of the work exceeds \$100,000, a county is required to advertise for bids and let contracts pursuant to chapter 332 or 338 of NRS, except that, in a county whose population is less than 45,000 (currently Churchill, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Mineral, Nye, Pershing, Storey and White Pine Counties), the board of county highway commissioners may instead determine, at a hearing and with the provision of certain notice requirements, to perform the work with county employees or day labor and using county equipment if the estimated cost of the project is more than \$100,000 but less than \$250,000. **Section 2** of this bill makes a parallel, conforming change with respect to the construction and repair of bridges.
