Legislative Counsel's Digest:

This bill prohibits a person from operating a motor vehicle to which is attached a dynamic display device, commonly known as a mobile billboard, on which the images or other content change periodically, upon the highways of this State, unless the motor vehicle is equipped with a display management system that is programmed to allow the image or content that is displayed to be changed only when the motor vehicle is: (1) not moving; or (2) in a location where the image or content may be changed without causing undue distraction to the operators of other vehicles. This bill also provides that such a dynamic display device may not project or otherwise show moving images, moving information or other moving content. A violation of this prohibition is punishable as a misdemeanor. (NRS 484A.900) This bill does not require a display management system if a dynamic display device is operated for purposes other than advertisement.
