AN ACT relating to water; providing for the issuance of certain nonemergency orders by the Division of Environmental Protection of the State Department of Conservation and Natural Resources; authorizing the recovery of civil penalties and the imposition of administrative fines for certain violations by a laboratory for the analysis of water; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Under existing law, the Division of Environmental Protection of the State Department of Conservation and Natural Resources is authorized to issue an emergency order requiring a supplier of water immediately to take action necessary to protect the public health if the Division determines that such order is necessary to eliminate an imminent hazard to a public water system. (NRS 445A.930) **Sections 2, 3 and 5** of this bill expand the authority of the Division to issue orders other than emergency orders to correct violations by operators of public water systems and laboratories for the analysis of water. **Section 2** also authorizes, under certain circumstances, the Division to issue a summary order against any person, directing the person to cease and desist from any further acts that constitute or would constitute a violation of certain provisions of law and regulations, or a term or condition of certain permits or certifications.

Under existing law, a person who owns, controls or operates a public water system is liable for a civil penalty and may be subject to an administrative fine per day for certain violations. (NRS 445A.950) **Section 3** of this bill authorizes the
