THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. NRS 387.1221 is hereby amended to read as follows:

387.1221 1. The basic support guarantee for any special education program unit maintained and operated during a period of less than 9 school months is in the same proportion to the amount established by law for that school year as the period during which the program unit actually was maintained and operated is to 9 school months.

2. Any unused allocations for special education program units may be reallocated to other school districts, charter schools or university schools for profoundly gifted pupils by the Superintendent of Public Instruction. In such a reallocation, first priority must be given to special education programs with statewide implications, and second priority must be given to special education programs maintained and operated within counties whose allocation is less than or equal to the amount provided by law. If there are more unused allocations than necessary to cover programs of first and second priority but not enough to cover all remaining special education programs eligible for payment from reallocations, then payment for the remaining programs must be prorated. If there are more unused allocations than necessary to cover programs of first priority but not enough to cover all programs of second priority, then payment for programs of second priority must be prorated. If unused allocations are not enough to cover all programs of first priority, then payment for programs of first priority must be prorated.

3. A school district, a charter school or a university school for profoundly gifted pupils may, after receiving the approval of the Superintendent of Public Instruction, contract with any person, state agency or legal entity to provide a special education program unit for pupils of the district pursuant to NRS 388.440 to 388.520, inclusive **H**, and *section 2 of this act*.

4. A school district in a county whose population is less than 700,000, a charter school or a university school for profoundly gifted pupils that receives an allocation for special education program units may use not more than 15 percent of its allocation to provide early intervening services.
