AN ACT relating to education; providing certain requirements for school facilities that are designated for use by persons of one biological sex; ~~revising certain provisions governing courses on acquired immune deficiency syndrome and the human reproductive system;~~ and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Section 1 of this bill requires that any school facility in a public school, including a restroom, locker room or shower which is designated for use by persons of one biological sex must only be used by persons of that biological sex, as determined at birth. **Section 1** also requires a public school to provide separate, private areas designated for use by pupils based on their biological sex for any school facility where pupils may be in a state of undress in the presence of other pupils. For the purposes of **section 1**, **section 3** of this bill provides an exception from the provisions of existing law that otherwise make it unlawful to deny equal access to places of public accommodation on the ground of gender identity or expression. (NRS 651.070)

~~Existing law requires the board of trustees of a school district to establish a course of instruction concerning acquired immune deficiency syndrome and the human reproductive system which may be taught only by a teacher or nurse whose qualifications have been previously approved by the board of trustees. (NRS 389.065) Section 2 of this bill provides that such a course may not be offered to pupils in kindergarten to grade 6, inclusive. Section 2 also requires that such a course may be taught only by a teacher or nurse employed full time by the school district and no other person or entity may assist in teaching the course. Section 2 further requires that any instructional material used in such a course may not contain explicit depictions of sexual activity.~~
